

Male Reproductive System Overview

Male Reproductive System - MCQs

- 1. Which of the following is the primary function of the testes?**
 - A) Produce testosterone
 - B) Produce sperm
 - C) Regulate temperature
 - D) Both A and B
- 2. Which part of the male reproductive system stores sperm for maturation?**
 - A) Seminiferous tubules
 - B) Rete testis
 - C) Epididymis
 - D) Prostate gland
- 3. The scrotum plays a vital role in:**
 - A) Protecting the testes
 - B) Regulating the temperature of the testes
 - C) Transporting sperm
 - D) Nourishing sperm
- 4. Which gland secretes a fluid rich in fructose to nourish sperm?**
 - A) Seminal vesicles
 - B) Prostate gland
 - C) Bulbourethral gland
 - D) Epididymis
- 5. The role of the prostate gland secretion is to:**
 - A) Nourish sperm
 - B) Lubricate the urethra
 - C) Neutralize acidity in the urethra
 - D) Increase sperm motility
- 6. Which of the following carries sperm from the epididymis to the ejaculatory duct?**
 - A) Urethra
 - B) Seminiferous tubules
 - C) Vas deferens
 - D) Seminal vesicle
- 7. Where does spermatogenesis occur in the male reproductive system?**
 - A) Rete testis
 - B) Seminiferous tubules

- C) Epididymis
- D) Vas deferens

8. **Which structure adds a clear, lubricating fluid to the semen just before ejaculation?**

- A) Seminal vesicle
- B) Prostate gland
- C) Bulbourethral gland
- D) Testes

9. **The glans penis is covered by a fold of skin called:**

- A) Scrotum
- B) Foreskin
- C) Epididymis
- D) Urethra

10. **The final passage for semen and urine in males is the:**

- A) Vas deferens
- B) Ejaculatory duct
- C) Urethra
- D) Epididymis

11. **Which of these is not a part of the male reproductive accessory glands?**

- A) Bulbourethral gland
- B) Prostate gland
- C) Pituitary gland
- D) Seminal vesicle

12. **The ejaculatory duct is formed by the union of the duct from the seminal vesicle and:**

- A) Urethra
- B) Epididymis
- C) Vas deferens
- D) Testes

13. **The temperature in the scrotum is maintained lower than the body temperature for:**

- A) Hormone production
- B) Spermatogenesis
- C) Blood circulation
- D) Sperm ejaculation

14. **Which of the following glands surrounds the urethra near the urinary bladder?**

- A) Seminal vesicle
- B) Bulbourethral gland
- C) Prostate gland
- D) Epididymis

15. **Sperm are transferred from the testes to the epididymis via the:**

- A) Urethra
- B) Vas deferens

- C) Rete testis
 - D) Seminiferous tubules
-

Answer Key

- 1. D
- 2. C
- 3. B
- 4. A
- 5. D
- 6. C
- 7. B
- 8. C
- 9. B
- 10. C
- 11. C
- 12. C
- 13. B
- 14. C
- 15. C
